Principal's Message

Dear Glendale School Community:

As we end our final year of school operation, I wanted to share a few words which reflect my time serving as the principal of Glendale School. Seven years ago, I was appointed to Glendale and with that, came the hopes and dreams for both our students and staff. We wanted to ensure everyone part of Glendale School had the opportunity to grow, develop and flourish as citizens.

From initiatives like the Junior ATB Bank, the Math, Games and Movie Nights, our school dances, Winter concerts and several Residencies focused on Health, Art, Literacy and Drama; Glendale School can be proud to say, in many meaningful ways, we were able to provide for our families. We worked with amazing community partners who assisted our families and students. Organizations like Big Brothers and Sisters, Sunrise Rotarians, Kids on Track, Food for Thought, Leader-In-Me, A.P.P.L.E. and Spirit West Church supported our school with a focus on ensuring equity for all families.

Staff approached working with your children as a way to prepare students for their next step. Whether that next step was their next reading or writing level, the next grade or a complete transition to a new school, staff worked to help your child grow as both a person and a learner.

With over 60 years of history, this school has many people to thank. We want to thank all those past parents, staff and students who have given Glendale School such delightful character and charm. We did our work, knowing the foundation was set by all those who cared so much for this school before us.

On behalf of the Glendale staff, we want to share our gratitude for sending us your children to grow, nurture and develop. Our students have taught us many wonderful lessons throughout our time with them. Our dedicated staff are now on to new adventures, where through the interactions with your children, the great work will continue. I wish for all members of our school community, a great deal of happiness and health as we end our time together.

May the wonderful memories of Glendale School always be with our students no matter how old they get!

Best Wishes,

Dr. Arief Ebrahim
